EZLAWN ELITE

ezLawn Elite features appealing field and olive green color tones paired with a brown thatch. The S-shaped blades contain a natural-looking spine for added durability and realistic appearance. ezLawn Elite is extremely durable and will handle moderate traffic along with all types of weather conditions—an excellent choice for any landscape!

TURF CHARACTERISTICS

S-BLADE TECHNOLOGY

- ▶ The S shaped blade makes it extremely resilient to traffic.
- ▶ S-Blade is one of the best looking synthetic turf products available.
- ▶ S-blade is made to reflect sunlight which eliminates the white look when faced with sunlight, resulting in a rich look.

Premium Turf for Canadians

Each one of our product lines are designed to look and feel natural, as well as withstand the extreme weather in the Canadian climate. All our grasses have passed vigorous tests and far exceed government standards. We provide a ten years warranty (turf only).

Professional Installation

Professional installation and/or job-site consultation services available throughout Canada from our over 200+ contractor network. Contact ez-grass today 800-444-0817, for a free quotation or for more information go to www.ezgrass.ca.
