## EZLAWN PRO

ezLawn PRO showcases elegant field and olive green blade colors coupled with a brown thatch base layer with a total weight of 94 ounces per square yard. The S-Blade technology gives this turf a soft feel and make it ideal for moderate to heavy foot traffic. The grass blades stand at 1.75 inches and is an ideal choice for any outdoor landscape!

## TURF CHARACTERISTICS

### S-BLADE TECHNOLOGY

- ▶ The "S" shaped blade makes it extremely resilient to traffic.
- ▶ S-Blade 90 is one of the best looking synthetic turf products available.
- ▶ S-blade is made to reflect sunlight which eliminates the white look when faced with sunlight, resulting in a rich look.

### Premium Turf for Canadians

Each one of our product lines are designed to look and feel natural, as well as withstand the extreme weather in the Canadian climate. All our grasses have passed vigorous tests and far exceed government standards. We provide a ten years warranty (turf only).

### Professional Installation

Professional installation and/or job-site consultation services available throughout Canada from our over 200+ contractor network. Contact ez-grass today 800-444-0817, for a free quotation or for more information go to [www.ezgrass.ca](http://www.ezgrass.ca).
